ADVANCING YOUR BEST WORK

The Cubitron™ II Sanding Disc is a revolutionary advancement in abrasive technology featuring triangular shaped ceramic mineral. As the triangular shaped grain wears, it continually fractures to form sharp points that slice through the substrate, wear evenly and provide extra-long life and consistency.

CUBITRON™ II

LASTS LONGER!

3M™ Film Disc 375L tackles tough applications with ease. Designed to provide maximum durability, flexibility and versatility, the 3M™ Film Disc 375L is an excellent choice to achieve the proper finish on metal, wood, composites or paint.
