

ACRY GLO®

AEROSPACE HIGH PERFORMANCE CLEARCOATS

HIGH GLOSS FINISHES
DELIVER MAXIMUM QUALITY
APPEARANCE AND
PRODUCTIVITY

Professional aircraft painters now have the option of which Clearcoat to use: the SKYscapes™ GA CM0850CC1 for increased speed, SKYscapes GA CM0855CC3 for speeding up or slowing down the coating application, or SKYscapes CM0850180 for improved chemical and fluid resistance. The Acry Glo clearcoats are designed for general aviation. The CM0571080 is a versatile and easy-to-use product and the Acry Glo HS clear CM0830080 can be used over acrylic urethane topcoats in conventional as well as high solids metallic colors.

HIGH PERFORMANCE CLEARCOAT FINISHES

HIGH GLOSS FINISHES DELIVER MAXIMUM QUALITY APPEARANCE AND PRODUCTIVITY

The keys to the best performing aerospace clearcoat applications are enhancing the topcoat's color and gloss retention, as well as adding long term durability to an aircraft's exterior finish.

Professional aircraft painters now have the option of which clearcoat to use: the SKYscapes® CM0850CC1 for increased speed, SKYscapes CM0850CC3 for speeding up or slowing down the coating application, SKYscapes CM0850180 for improved chemical and fluid resistance. The Acry Glo® clearcoats are designed for general aviation. The CM0571080 is a versatile and easy-to-use product and the Acry Glo HS clear CM0830080 can be used over acrylic urethane topcoats in conventional as well as high solids opaque and metallic colors.

SKYSCAPES® CLEARCOAT ADVANTAGES

- High gloss, extremely durable products
- Designed to work over SKYscapes basecoat systems
- Can also be used over Jet Glo® and Jet Glo Express™
- Fast dry times that lead to improved productivity
- Easy to mix
- Excellent flow and leveling

SKYSCAPES CLEARCOAT

A high performance polyester urethane (CM0850180) designed to be used over SKYscapes basecoat on exterior surfaces of commercial or general aviation aircraft. Our most chemical resistant clearcoat, the CM0850180 passes the harshest of aerospace tests.

SKYSCAPES® GENERAL AVIATION CLEARCOATS

SKYscapes features a choice of innovative aircraft grade polyester urethane clearcoats designed to be used over SKYscapes basecoats on exterior surfaces of general aviation aircraft. CM0850CC1 offers fast dry-to-tape time to increase productivity while CM0855CC3 can be sped up or slowed down to provide the correct clearcoat application on a complete variety of aircraft applications and sizes. Both offer excellent buffing characteristics for an ideal, final gloss finish.

ACRY GLO CLEARCOAT

Acry Glo clear (CM0571080) is a high performance, multi-component acrylic urethane designed for use on all types of aircraft. It is a proven performer as it has been used in the industry for more than 30 years.

ACRY GLO HIGH SOLID CLEARCOAT

Acry Glo High Solids clearcoat (CM0830080) is a high performance, acrylic urethane system designed for use on a variety of aircraft. Ideal for use over Acry Glo High Solids metallic finishes.
