Tufcote™ 2.8 HG

3100 Acrylic Alkyd Economy Products

Tufcote™ 2.8 HG series acrylic alkyd products for the economy industrial market.

The Tufcote 2.8 HG series topcoats are durable, extremely high gloss enamel made from a premium quality, acrylic-modified, alkyd resin. Acrylic alkyd products are known for their smooth, durable surfaces. Designed as an economy industrial coating to provide exceptional performance, long-term weather protection and a tough, colorful appearance at a volatile organic compound (VOC) level of 2.8 lbs/gal (340 g/l). Tufcote 2.8 HG series topcoats are intended for maintenance use on farm and construction equipment, and in interior high traffic areas such as door frames, trim, cabinets and window frames.

Target Industries

- >> Farm equipment
- >> Construction equipment
- >> Interior trim, moldings
- >> Cabinets
- >> Door frame
- >> Window frame

Substrates

- >> Ferrous metals
- >> Painted surfaces

Product Attributes

- >> Extremely high gloss
- >> Tough and durable
- >> A true general purpose enamel
- >> Excellent hide and coverage

Solventborne Coatings

Tufcote 2.8 HG Series 3100 Acrylic Alkyd Topcoat

(Formerly Hy-Lux 3100 Series)

Tufcote 2.8 HG is ready-to-use as packaged, however 8499 Polyurethane Catalyst may be added for increased performance and is easily applied using conventional methods and equipment.

Available in these well-known industrial colors:

3100 White	3119 Cat Yellow
3101 Black	3121 New National Blue
3105 Baja Beige	3125 Medium Green
3107 New Unit Rig Grey	3145 Light Yellow
3108 Platinum Grey	3151 John Deere Green
3109 International Red	3164 Ford Safety Blue
3110 Safety Red	3165 Wimbledon White
3115 Safety Orange	3176 Int'l Case & MF Yellow
3116 International Orange	3193 Silver Metallic
3117 Yellow	3195 New Cat Yellow

Tufcote 2.8 Topcoats are compatible for use over:

Tufcote Hydro 2.1 PR Series 1262, 1263, 1272 Acrylic Primer

(Formerly Hy-Lux 1200 Series Primers)

Waterborne low VOC, quick-dry, acrylic-based primer designed with excellent adhesion properties for use on metal and wood substrates. This primer is an excellent choice for areas that require a primer that contains no lead or chromates. 1262 White Primer has been USDA approved as a primer in areas subjected to incidental food contact.

Tufcote LV PR Series 4482, 4487 Acrylic Alkyd Primer

(Formerly Maximus 4400 Series Primers)

Acrylic alkyd 1K rust-inhibitive primer with good weathering, corrosion resistance and bonding characteristics. Excellent hide and coverage at only 0.8 lbs/gal (100 g/l) VOC.

Tufcote Hydro LV PR Series 7962, 7963, 7994 Acrylic Primer

(Formerly Maximus 7900 Series Primers)

A waterborne 1K rust-inhibitive primer that may be used over most firm surfaces. It is a high quality, 0.8 lbs/gal (100 g/l) VOC versatile primer formulated for long-term corrosion protection.

All may be applied by spray application, brush or roller.
