ACRYLIC

EPOXIES

URETHANES

LINES WE SUPPORT

Legacy Industrial

Imron | Corlar | Ganicin | Tufcote

For more than 90 years, customers have relied on Axalta's liquid industrial applications to help protect their valuable assets. Delivering superior value and proven results, it's quality you can count on. Whatever the challenge, choose from a wide range of polyurethane, epoxy, alkyd, acrylic, and zinc-rich coatings formulated for tough environments and difficult surface conditions.

Tufcote Economy

Axalta has introduced Tufcote ultra low volatile organic compound (VOC) products for use in areas with the most stringent regulatory requirements. The Tufcote product lines include acrylic alkyd, epoxy, and polyurethane primers and topcoats for use in a wide variety of high performance industrial environments.

Strenex

The Strenex family of products include waterborne and solventborne single-component alkyd and acrylic products, as well as solventborne urethanes. The offering has a selection of fit-for-purpose fast-drying primers and direct-to-metal topcoats that allow users to reduce production times and costs.

WHY BUY FROM BLEND SUPPLY?

Blend Supply is a full service distributor of coatings, industrial and MRO supplies with deep industry expertise serving the aerospace, industrial, marine and military markets. Our full service team provides customer service and on-site technical assistance. Blend Supply offers next day shipping options for most of the country from our many distribution centers across the U.S.

We look forward to the opportunity to serve you soon.

Distribution Centers
